

RENTAL ID 5389

Our Hydraulic Power Units (HPUs) are engineered for superior performance and reliability. Each unit is delivered with oil and certified lifting gear for lifting, ensuring easy and safe transportation and installation.

Features

- **Redundancy:** 100% redundancy achieved through dual separate hydraulic systems.
 - **Operation:** Hydraulic systems can be operated independently or together for enhanced safety and zero downtime. HMI touch screen for easy start-up.
 - **Seamless continuity:** In the event of a system failure, the alternate hydraulic system ensures uninterrupted operation.
- **Design:** Enclosed in a container to minimize noise and simplify maintenance, promoting a quieter and more user-friendly operational environment. SPL sound pressure 80 dBA.

Technical specifications

- **Hydraulic systems:** Dual separate systems for redundancy and reliability. Automatic air/oil cooler installed. Quick mount and drip secure hydraulic connectors mountes in front of unit (SnapTite 71 series)
- **Electrical systems:** Electrical configurations for running both pumps.
- **Containerized construction:** Designed for reduced noise levels and easier maintenance access.
- **Area class:** For use in hazardous area zone 1 (offshore)

Certification

- **Lifting Gear:** Certified lifting gear included for secure lifting.
- **Documentation:** NORSOK Z-015 package
